Texas Healthcare Transformation and Quality Improvement Program

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

---

1. Preface

State	Texas Health and Human Services Commission
Demonstration Name	Texas Healthcare Transformation and Quality Improvement Program - "1115 Transformation Waiver"
Approval Dates	Initial approval date: December 12, 2011 15-Month Extension approval date: May 2, 2016 Renewal approval date: December 13, 2017 Renewal extension approval date: January 15, 2021
Approval Period	December 13, 2017-September 30, 2022 January 15, 2021-September 30, 2030
Demonstration Goals and Objectives	The Texas Healthcare Transformation and Quality Improvement Program Section 1115 Waiver enables the State to expand its use of Medicaid managed care to achieve program savings, while also preserving locally funded supplemental payments to hospitals. The goals of the demonstration are to: • Expand risk-based managed care statewide; • Support the development and maintenance of a coordinated care delivery system; • Improve outcomes while containing cost growth; and • Transition to quality-based payment systems across managed care and providers.

Medicaid Section 1115 Monitoring Report

Texas Healthcare Transformation and Quality Improvement Program

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

2.Executive Summary

According to the Special Terms and Conditions (STCs) of the Demonstration, the Texas Health and Human Services Commission (HHSC) provides its monitoring report for Demonstration Year (DY) 10, which begins October 1, 2020, and State Fiscal Year 2021 (SFY21), which goes from September 1, 2020, through August 31, 2021. This report meets the SFY21 Quarter 3 (Q3) reporting requirements for STAR, STAR Kids, STAR+PLUS, the Children's Medicaid Dental Services (Dental Program), and the 1115 Transformation Waiver programs.

In the beginning of Federal Fiscal Year 2021, the Texas Medicaid program served over 4.2 million clients through Medicaid Managed Care (MMC) and over 96 percent of Medicaid clients were enrolled in MMC. The estimated annual cost for Texas Medicaid for federal fiscal year 2021 is $50 billion (includes all Medicaid expenditures).

The State contracted with 17 managed care organizations (MCOs) and 3 dental maintenance organizations (DMOs): 16 for STAR, 5 for STAR+PLUS, 9 for STAR Kids. Each MCO covers one or more of the 13 STAR service delivery areas (SDAs), while each dental plan provides statewide services (See ***Attachment A***).

The state is in the process of a few major initiatives related to complying with the Home and Community-Based Services regulations, addition of new benefits, and complying with state legislation including adding an Independent Review Organization to the existing appeal process. As of June 1, 2021, the State moved non-emergency medical transportation (NEMT) services to the managed care model.

During Q3, the state continued to operate supplemental payments programs. Additionally, the state submitted the Delivery System Reform Incentive Payment (DSRIP) program milestones to continue work toward a full and successful

transition; the Uncompensated Care pool (UC) continued under the new structure implemented October 1, 2019. Texas' budget neutrality workbook reveals Texas continues to have a positive gain through the design and implementation of MMC.

As part of managed care monitoring activities, HHSC uses geo-mapping analysis to determine MCO and DMO compliance with network distance requirements. If an MCO or DMO does not meet the required compliance standards, HHSC determines whether a contract remedy is appropriate. An MCO or DMO may request a special exception when it does not meet the standards. HHSC may grant exceptions for specific areas that do not have providers available for contracting, or if the MCO is unable to contract with providers in the area and has demonstrated reasonable efforts to do so.

Additionally, HHSC uses a variety of tools to monitor and assess member access to care, including review of appointment wait times, analysis of out-of-network utilization and member complaints, service planning for members with special healthcare needs, and appointment availability studies. While none of these tools alone can effectively ensure provider network adequacy, combined they help HHSC monitor member access to care and identify areas for improvement.

HHSC is continually evaluating network adequacy standards and monitoring processes for Medicaid managed care programs, as part of an ongoing effort to ensure that members have access to a choice of quality health care providers and services.

The public health emergency related to COVID-19 was a key challenge impacting the 1115 Transformation Waiver. It has significantly impacted both costs and caseload. In response to the public health emergency and financial strains impacting the Texas healthcare system, Texas submitted an extension application in November 2020. Texas and the Centers for Medicare and Medicaid Services (CMS) worked together to negotiate and to agree to updated terms. Texas received approval on January 15, 2021. This was a key achievement and created financial

certainty and security for Texas Medicaid, its Medicaid managed care organizations, and its network of contracted providers actively responding to the public health emergency.

Difficulties operating the 1115 Transformation waiver emerged with the letter from CMS that purported to rescind the January 15, 2021 approval. The Texas 1115 Transformation waiver provides the authority under which most of Medicaid manage care is authorized. Without the terms previously negotiated and agreed to, Medicaid managed care, quality and access incentive programs within Medicaid managed care, supplemental payments made possible through managed care savings, and various initiatives aimed at continuous improvement of the program are at risk.

This report further discusses in more detail the highlights included in this summary section.

3.Enrollment

This section incorporates metrics for the relevant demonstration type. Texas includes an enrollment summary in the Attachment B1 where enrollment can be seen by product line, by service delivery area, and by each managed care organization. A targeted review of members by population and members with special health care needs are included below and in Attachments B1, L, & Q.

This section addresses trends and issues related to STAR, STAR Kids, STAR+PLUS, and Dental Program eligibility and enrollment; enrollment counts for the quarter; Medicaid eligibility changes; anticipated changes in populations and benefits; and disenrollment from managed care. Enrollment growth during the public health emergency has been significant.

Because of the time required for data collection, total enrollment counts are reported on a one-quarter lag. This report includes both Q1 and Q2 data as found in the attachments; however, the state is highlighting the most recent data from Q2 in the narrative.

Total enrollment for SFY21 Q2 was as follows (See Attachment B1):

- 3,665,334 in STAR
- 532,810 in STAR+PLUS
- 171,747 in STAR Kids
- 3,707,009 in the dental program

During Q2, the market share was as follows:

- STAR was at 84%
- STAR Kids was at 4%
- STAR+PLUS was at 12%.

Market share distribution in the Dental Program remained steady as DentaQuest finished Q2 with 57% and Managed Care of North America (MCNA) with 39% and United with 4%.

The State's enrollment broker, MAXIMUS, submits monthly and quarterly reports summarizing total unduplicated enrollment by program (See Attachment L, D-047 CMS Narrative Summary Report, pg. 3). Effective 9/1/20, MAXIMUS' new deliverable (ID D-047) is submitted to HHSC Bi-Annually (December and June of each contract year). The next submission is due in December 2021. MAXIMUS reported unduplicated enrollments encompassing December 2020 through May 2021 with effective dates of January 1st through June 1st for STAR, STAR+PLUS, and STAR Kids. The STAR, STAR+PLUS, and STAR Kids Programs reported an average of 4,461,867 total enrollments per month. The Dental Program reported an average of 3,525,311 total enrollments in the reporting period.

Enrollment Counts for the Quarter by Population

This subsection includes quarterly enrollment counts provided by HHS Forecasting. Because of the time required for data collection, some data are reported on a lag. Enrollment counts are based on people served, not member months.

Enrollment Counts (DY9 Q3 April – June 2020)

Enrollment Counts (Demonstration Populations)	Total Number Served
Adults	325,266
Children	2,770,511
Aged and Medicare Related (AMR) (non-MRSA - pre Sep14)	379,196
Disabled	414,413

Medicaid Section 1115 Monitoring Report

Texas Healthcare Transformation and Quality Improvement Program

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

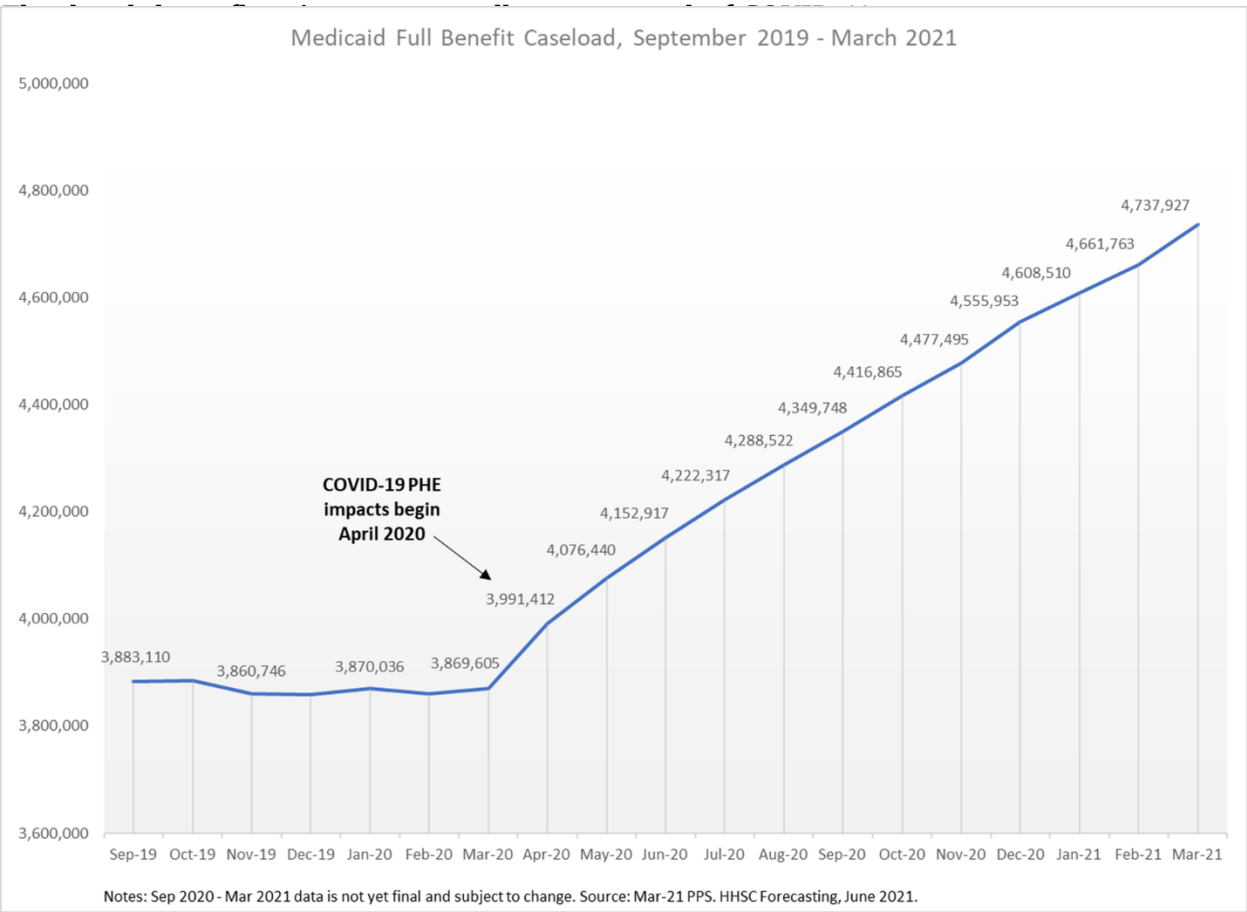
Enrollment Counts (DY9 Q4 July – September 2020)

Enrollment Counts (Demonstration Populations)	**Total Number Served**
Adults	373,931
Children	2,927,058
AMR (non-MRSA - pre Sep14)	379,421
Disabled	418,686

NOTE: On Jan. 27, 2020, the Secretary of Health and Human Services declared a public health emergency due to the novel coronavirus. In March, Governor Greg Abbott declared a disaster in Texas due to the COVID-19 pandemic. Additionally, federal law passed in March 2020, H.R. 6201 (Families First Coronavirus Response Act), required states to maintain continuous Medicaid coverage during the federal public health emergency period as a condition of receiving enhanced federal funding. As part of the emergency response, Texas Health and Human Services put automated processes in place to maintain Medicaid coverage.

On October 28, 2020, the Centers for Medicare and Medicaid Services (CMS) issued interim final rules which provided clarification on the continuous enrollment requirements in the Families First Coronavirus Response Act (FFCRA). CMS clarified states must transition individuals between eligibility categories during the public health emergency, if the new Medicaid program provides the same tier of benefits or a higher tier of benefits. Texas has aligned with the interim final rule related to maintenance of eligibility as part of the FFCRA.

Beginning in February 2021, the Texas Health and Human Services Commission (HHSC) transitioned Medicaid clients to the appropriate program on an ongoing basis when there was a change in circumstance or when processing a renewal application. Generally, if a client no longer meets the criteria for their current program, and does not qualify for another Medicaid group, they will remain in their current group for the remainder of the public health emergency. There are some limited situations where an individual will not continue to receive Medicaid State Plan benefits such as when the individual leaves the state, voluntarily leaves the program, or who are deceased.



Enrollment of Members with Special Health Care Needs

This subsection of the report addresses managed care enrollment of members with special health care needs (MSHCN). ***Attachment Q*** outlines details by SDA and MCO.

In SFY21 Q3, STAR MCOs reported a total of 110,175 children and adults identified as MSHCN. STAR MCOs reported 19.55% of MSHCN had a service plan and 80.45% of MSHCN did not have a service plan (See ***Attachment Q***).

- Four MCOs (Aetna, Community Health Choice, Driscoll, and United Healthcare) reported more than 60 percent of their MSHCN had a service plan in certain SDAs.
- Three MCOs (Amerigroup, Blue Cross Blue Shield, and Texas Children's) reported less than 10 percent of their MSHCN had a service plan in certain SDAs. The majority of these MSHCN did not a have service plan because they were unable to be reached by the MCO.

Harris SDA holds the most MSHCN with 31,962 of all reported STAR MSHCN. Dallas SDA holds the second-most reported MSHCN with 15,424 STAR MSHCN.

The number without service plans includes those who declined and those who could not be reached. Percentages represent the proportion of MSHCN without service plans who declined Service Management or whom the MCO was unable to reach. Member with Special Health Care Needs (MSHCN) is defined as: A member including a child in the Department of State Health Services (DSHS) Children with Special Health Care Needs (CSHCN) Program as further defined in Texas Health & Safety Code § 35.0022, who: (1) has a serious ongoing illness, a Chronic or Complex Condition, or a Disability that has lasted or is anticipated to last for a significant period of time, and (2) requires regular, ongoing therapeutic intervention and evaluation by appropriately trained health care personnel.

Member Disenrollment

The State received a total of two Medicaid disenrollment requests in SFY21 Q3 (***See Attachment B2***). The State received the following in SFY21 Q3: zero disenrollment requests for STAR, two for STAR+PLUS, zero for STAR Kids and zero for the Dental Program.

Provider Network Enrollment

This subsection includes quarterly healthcare provider counts for STAR, STAR+PLUS, STAR Kids, and the dental contract.

Because of the time required for data collection, quarterly healthcare provider counts per quarter are reported on a one-quarter lag.

This subsection includes quarterly healthcare provider counts for STAR, STAR+PLUS, STAR Kids, and dental provider counts for the dental program for SFY21 Q1 and Q2 (See Attachment C2). This report includes both Q1 and Q2 data as found in the attachments; however, the state is highlighting the most recent data from Q2 in the narrative. Provider Network Count Methodology may be found in Attachment C1.

Across the programs statewide for SFY21 Q2, the MCOs reported:

- 17,290 unique PCP providers for the STAR program
- 15,871 unique PCP providers for the STAR+PLUS program
- 15,655 unique PCP providers for the STAR Kids program

Across the programs statewide for SFY21 Q2, the MCOs reported:

- 75,669 unique specialists for the STAR program
- 69,140 unique specialists for the STAR+PLUS program
- 61,006 unique specialists for the STAR Kids program

Across the dental program statewide, the DMOs reported 6,267 unique primary dental providers for SFY21 Q2.

Across the programs statewide for SFY21 Q2, the MCOs reported:

- 5,020 unique pharmacists for the STAR
- 4,856 unique pharmacists for the STAR+PLUS
- 5,301 unique pharmacists for the STAR Kids program

Attachment C3 details the data reported by the MCOs regarding the number of PCPs and specialists terminated in SFY21 Q1 and Q2. The MCOs reported a variety of reasons for termination. For Q2, the top three reasons for PCP terminations included provider left group practice, termination requested by provider, and provider failed to recredential. The top three reasons for specialist terminations included provider left group practice, provider placed on inactive status, and termination requested by provider.

3.1 Anticipated Changes to Enrollment

☐ **The state does not anticipate changes to enrollment at this time.**

On Jan. 27, 2020, the Secretary of Health and Human Services declared a public health emergency due to the novel coronavirus. In March, Governor Greg Abbott declared a disaster in Texas due to the COVID-19 pandemic. Additionally, federal law passed in March 2020, H.R. 6201 (Families First Coronavirus Response Act),

required states to maintain continuous Medicaid coverage during the federal public health emergency period as a condition of receiving enhanced federal funding. As part of the emergency response, Texas Health and Human Services put automated processes in place to maintain Medicaid coverage.

On October 28, 2020, the Centers for Medicare and Medicaid Services (CMS) issued interim final rules which provided clarification on the continuous enrollment requirements in the Families First Coronavirus Response Act (FFCRA). CMS clarified states must transition individuals between eligibility categories during the public health emergency, if the new Medicaid program provides the same tier of benefits or a higher tier of benefits. Texas has aligned with the interim final rule related to maintenance of eligibility as part of the FFCRA.

Beginning in February 2021, the Texas Health and Human Services Commission (HHSC) transitioned Medicaid clients to the appropriate program on an ongoing basis when there was a change in circumstance or when processing a renewal application. Generally, if a client no longer meets the criteria for their current program, and does not qualify for another Medicaid group, they will remain in their current group for the remainder of the public health emergency. There are some limited situations where an individual will not continue to receive Medicaid State Plan benefits such as when the individual leaves the state, voluntarily leaves the program, or who are deceased.

4.Network Adequacy

To ensure the availability and accessibility of services in a timely manner, MCOs are required to meet network adequacy standards for time and distance. These vary by provider type and county designation (metro, micro, rural). MCOs must ensure at least 90% of members, unless otherwise specified, have access to a choice of each provider type (PCPs, dentist, and specialty services) in each service delivery area (SDA) within prescribed travel time and distance standards. The required distance and travel time standards vary by provider and county designation (see Attachment E). Attachments H1-H4 include Q1, Q2 and Q3 data; however, the narrative highlights only the most recent updates from Q3 of SFY 2021. Attachment H1 provides an analysis of the percentage of members, within the maximum distance standard of at least two Primary Care Providers (PCPs), (based on Medicaid enrollment files) by program and county designation (metro, micro, rural) within the distance standard of 90%.

Almost all MCOs met PCP network access standards for the STAR, STAR+PLUS and STAR Kids programs for SFY21 Q3. The only exceptions were FirstCare (STAR) in metro counties, Community First Health Plan (STAR and STAR Kids) in micro counties and Molina Healthcare of Texas (STAR+PLUS) in micro counties.

Similarly, MCOs are required to maintain an adequate network of specialty providers such that 90% of members have access to at least two providers (except as noted below) within the time and distance standard for the specialty provider type. HHSC has established network adequacy standards for the following types of specialty providers: acute care hospital; audiologist; behavioral health outpatient; cardiovascular disease; ear, nose and throat (ENT); Mental Health Targeted Case Management (TCM) and Mental Health Rehabilitative Services (MHR); general surgeon; nursing facility; OB/GYN; ophthalmologist; orthopedist; pediatric sub-specialty; prenatal care; therapy (occupational, physical, and speech); psychiatrist; and urologist.

Attachment H2 presents the detailed specialty provider analysis by program and county designation (metro, micro, rural). In every Medicaid managed care program authorized under the waiver, MCOs met or exceeded the 90% standard for members' access to specialty providers, except for audiologists, mental health TCM, mental health MHR, and pediatric sub-specialist providers. The evaluation of network adequacy compliance occurs at the county level. It is possible for an MCO's overall average compliance rate to be high yet still be below 90% in one or more counties. The table below summarizes the count of MCOs that did not meet the 90% compliance standard in one or more counties.

MCO Network Adequacy Summary – Specialty Providers – Number of MCOs that did not meet the standard, by Specialty Provider, Program and County designation SFY21 Q3*

Type of Specialist	Program	Metro County	Micro County	Rural County
Acute Care Hospital	STAR	2	9	14
	STAR+PLUS	0	5	5
	STAR Kids	0	7	6
Audiologist	STAR	7	9	8
	STAR+PLUS	5	5	5
	STAR Kids	5	4	4
	STAR	0	1	0

Type of Specialist	Program	Metro County	Micro County	Rural County
Behavioral Health – Outpatient	STAR+PLUS	0	0	0
	STAR Kids	0	1	0
Cardiovascular Disease	STAR	4	6	1
	STAR+PLUS	0	4	1
	STAR Kids	2	6	2
ENT (Otolaryngology)	STAR	0	4	2
	STAR+PLUS	1	1	2
	STAR Kids	1	2	3
Mental Health Targeted Case Management (TCM) and Mental Health Rehabilitative Services (MHR)	STAR	9	14	6
	STAR+PLUS	5	5	3
	STAR Kids	7	9	5
General Surgeon	STAR	0	2	1

Type of Specialist	Program			
		Metro County	**Micro County**	**Rural County**
	STAR+PLUS	0	1	0
	STAR Kids	0	1	0
Nursing Facility	STAR+PLUS	0	0	0
OB/GYN	STAR	0	0	0
	STAR+PLUS	0	0	0
	STAR Kids	0	0	0
Ophthalmologist	STAR	1	8	2
	STAR+PLUS	0	4	0
	STAR Kids	1	6	2
Orthopedist	STAR	0	5	2
	STAR+PLUS	0	4	2
	STAR Kids	0	3	2
Pediatric Sub-Specialty	STAR	2	4	4

Type of Specialist	Program	Metro County	Micro County	Rural County
	STAR Kids	2	5	3
Prenatal	STAR	0	1	3
	STAR+PLUS	0	1	2
	STAR Kids	0	1	2
Psychiatrist	STAR	1	5	2
	STAR+PLUS	0	2	1
	STAR Kids	2	3	2
Therapy (Occupational, Physical, and Speech)	STAR	0	0	1
	STAR+PLUS	0	0	0
	STAR Kids	0	0	0
Urologist	STAR	1	6	7
	STAR+PLUS	0	4	4
	STAR Kids	2	4	3

*See Attachment H-H2 for detailed data tables for each MCO

The DMOs met the network access standard of 95% for Main Dentist throughout SFY21 Q3. ***Attachment H3*** provides dentist analysis by DMO and county designation.

DMOs did not consistently meet network access standards for dental specialty providers (Orthodontists, Endodontists and Pediatric dentists) in all county designation for SFY21 Q3. For Q3, Dental Quest met the standards for Orthodontists and Pediatric dentists but did not meet the standards for Endodontists. MCNA Dental met the standards only for Orthodontists, while United Healthcare Dental did not meet compliance criteria for any dental specialty. ***Attachment H4*** provides dental specialty analysis by provider type and county designation.

In addition to monitoring network adequacy performance of the MCOs related to primary and specialty care, HHSC continues to enhance efforts to monitor long-term services and supports, in particular, community attendant care. As part of the implementation of the Community Attendant Workforce Development Strategic Plan required by the 2020-21 General Appropriations Act, House Bill 1, 86th Legislature, Regular Session, 2019 (Article II, Health and Human Services Commission [HHSC], Rider 157)[1], HHSC is enhancing provider network adequacy standards for Medicaid MCOs to ensure members have sufficient access to community care attendants. Managed care contracts have been updated to clarify that MCOs must ensure that a minimum of 90% of their members have timely access to community attendant care services upon authorization of services. Timeliness is defined as within seven

[1] https://www.hhs.texas.gov/sites/default/files/documents/laws-regulations/reports-presentations/2020/rider-157-ca-workforce-dev-strat-plan-nov-2020.pdf

days from the authorization. HHSC will begin reporting on this in future reports once data is available for the corresponding reporting period.

MCO and DMO Network Adequacy Standard Exceptions

HHSC is reviewing its methodology and monitoring processes in an effort to ensure the most precise representation of actual performance with thorough and comprehensive reporting and analysis conducted prior to recommending liquidated damages. Corrective Action Plans issued for Q4 SFY 2018 and Q2 SFY 2019 were withdrawn in July 2020. HHSC focused its monitoring efforts on ensuring MCOs and DMOs implement access to care plans and member education initiatives. HHSC utilized this time to resolve data discrepancies and redesign the network adequacy corrective action process to include the exception request process. HHSC resumed the network adequacy corrective action process in Q2 SFY 2021.

MCOs and DMOs may submit an exception request for areas of non-compliance via the network adequacy corrective action process. HHSC approves or denies the exception request based on the review of supporting information that demonstrates an MCO's provider contracting efforts and assurances of access to care. As part of the exception, the MCO must implement strategies to proactively contact and provide education to the impacted members on how to access care by approaches such as providing a list of network providers in the area, providing guidance and a list of network providers offering telehealth and telemedicine services, how to access care outside of the area, how to contact member services and the Member Hotline, what to do in case of an emergency, and how to access non-emergent medical transportation and the MCOs' transportation value-added service, if available. The MCO must ensure continuity of care and offer single case agreements with a provider to ensure the member's continued care, as necessary. If the exception request is denied, the MCO is subject to remedies such as liquidated damages or a corrective action plan. Based on the Q2 SFY 2021 network adequacy

performance reports, all MCOs and DMOs are under corrective action for failure to meet one or more applicable network adequacy measure.[2]

Member and Provider Hotline Performance

The list below outlines performance standards of MCO and DMO Member and Provider Hotlines.

- The MCOs and DMOs must have a toll-free hotline that members can call 24 hours a day, 7 days a week. The MCOs are required to meet the following hotline performance standards:
- 99% of calls must be answered by the fourth ring;
- ≤1% busy signal rate for all calls (for behavioral health (BH), no incoming calls receive a busy signal;
- 80% of all calls must be answered by a live person within 30 seconds (not applicable for provider hotlines);
- ≤ 7% call abandonment rate; and
- ≤ 2 minutes average hold time.

SFY21 Hotline performance data is in the process of validation. Data collection for MCO self-reported data for hotline performance measures transitioned to a new format in SFY20, requiring adjustments to submission, extraction, and reporting processes. As a result, reporting has been delayed for SFY21. However, the data for these measures will be included in a future report.

Provider Open Panel

MCOs submit provider files identifying the number of PCPs and main dentists who are accepting new Medicaid patients, which are described here as "open panel"

[2] Corrective Action Plans (CAPs) are issued for even numbered quarters (Q2 and Q4).

PCPs and "open practice" dentists. HHSC monitors PCPs with "open panel" at an 80% benchmark. Because of the time required for data collection, quarterly healthcare provider counts per quarter are reported on a one-quarter lag. This report includes both Q1 and Q2 data as found in the attachments; however, the state is highlighting the most recent data from Q2 in the narrative. In SFY21 Q2, all MCOs and DMOs, except Cook Children's in STAR (73.35%) and STAR Kids (71.31%) met the 80% benchmark. However, HHSC has not identified access to care concerns, issues, or complaints. Cook Children's contracts with PCPs that elect to maintain a closed panel. The PCPs provide services to a certain number of Medicaid clients as well as other clients not enrolled in these programs. In addition, Cook Children's has the flexibility of working with certain PCPs who have a closed panel to agree to take on new members normally achieved on a case-by-case basis. This arrangement has allowed Cook Children's to maintain these providers in the network. Based on these justifications, HHSC is not pursuing remedial action against Cook Children's.

Appointment Availability

There are no new updates for this quarter.

Out-of-Network (OON) Utilization

MCOs are required to submit the OON Utilization Report for each service delivery area (SDA) in which the MCO operates. In each SDA, the OON utilization should not exceed the following standards:

- 15% of inpatient hospital admissions
- 20% of emergency room (ER) visits
- 20% of total dollars billed for other outpatient services

HHSC continues to work closely with MCOs to ensure compliance with the OON utilization standards. MCOs may submit a Special Exception Request Template

(SERT) for areas of non-compliance. HHSC approves or denies the SERT based on the review of supporting information that demonstrates the MCO was unsuccessful in provider contracting efforts. If approved, the MCO submits a recalculated Out-of-Network Utilization Report, excluding the utilization of the aforementioned provider(s). If the recalculation does not bring the MCO into compliance, the MCO remains out of compliance and is subject to contract action such as assessing liquidated damages or implementing a corrective action plan. Attachment D provides OON utilization performance summary for SFY21 Q1 and Q2. Because of the time required for data collection, OON utilization counts are reported on a one-quarter lag. This report includes both Q1 and Q2 data as found in the attachments; however, the state is highlighting the most recent data from Q2 in the narrative.

The MCOs listed below exceeded OON utilization standards in SFY21 Q2 and have a SERT in place bringing the MCOs into compliance. The State will continue to monitor these MCOs and will require corrective action or other remedies as appropriate.

OON Emergency Room (ER)

- STAR
  - CHC – SERT is in place to cover reporting period SFY21 Q2.
  - Dell Children's – SERT is in place to cover reporting periods Q4 2020 through Q3 2021.
- STAR+PLUS
  - Molina – SERT is in place to cover reporting period SFY21 Q2.

OON Inpatient

- STAR
  - CHC – SERT is in place to cover reporting period SFY21 Q2.
  - Dell Children's – SERT is in place to cover reporting periods Q4 2020 through Q3 2021.

Oversight of MCOs and DMOs

HHSC staff routinely evaluate MCO and DMO performance reported by the MCOs and DMOs and compiled by HHSC. If an MCO or DMO fails to meet a performance expectation, standard, schedule, or other contract requirement such as the timely submission of deliverables or providing the level of quality required, the managed care contract gives HHSC the authority to use a variety of remedies, including:

1. Developing corrective action plans (CAPs).
2. Assessing monetary damages (actual, consequential, direct, indirect, special, and/or liquidated damages (LDs).

The information reflected in this report represents the most current information available at the time it was compiled. The sanction process between HHSC and the health and dental plans may not be complete at the time the report is submitted to the Centers for Medicare and Medicaid Services (CMS). HHSC posts the final details of any potential enforcement actions taken against a health or dental plan each quarter on the following website: https://hhs.texas.gov/services/health/medicaid-chip/provider-information/managed-care-organization-sanctions.

The following are the formal names associated with the MCOs and DMOs operating in the Medicaid programs under this 1115 waiver:

MCO / DMO Name
SHA. LLC, dba FIRSTCARE
Cook Children's Health Plan
Parkland Community Health Plan, Inc.
Seton Health Plan, Inc., dba Dell Childrens Health Plan
Banker's Reserve Life Ins. Co. d/b/a Superior HealthPlan Network

DentaQuest USA Insurance Company, Inc.
MCNA Insurance Company

5.Anticipated Waiver Amendments and Anticipated Changes to Medicaid Managed Care Benefits

The 87th Texas Legislature began their work in January 2021 and the session concluded in June 2021. Further highlights from the legislative session included below.

Autism Services

Senate Bill 1, Article II, (Health and Human Services Commission) Rider 28, 87th Legislature, Regular Session, 2021 authorized the implementation of additional services for the treatment of eligible children with autism under the Texas Medicaid program. HHSC plans to submit an amendment to the 1115 Transformation waiver related to the coverage of certain early and periodic screening, diagnostic, and treatment (EPSDT) services for children and youth with a diagnosis of autism spectrum disorder (ASD).

Long-Term Services and Supports for Individuals with Intellectual and Developmental Disabilities (IDD) Transition

HHSC continues work toward compliance with House Bill (HB) 4533 (86th Legislature, Regular Session, 2019), which amends Texas Government Code, Chapter 534 and directs HHSC to develop and implement a pilot program through the STAR+PLUS Medicaid managed care program to test person-centered managed care strategies and improvements under a capitated model. The pilot program will inform the future carve-in of waivers and community intermediate care facilities programs to a Medicaid managed care model, or system redesign, beginning with Texas Home Living in 2027.

The Intellectual and Developmental Disabilities (IDD) System Redesign Advisory Committee (SRAC) and the Pilot Program Workgroup continue to meet and submit recommendations to aid in the development of the pilot program.

The pilot program will implement September 1, 2023 and operate for at least 24 months. The pilot program is meant to test the delivery of LTSS for people with IDD or similar functional needs through managed care. The information gained through the pilot will be used to inform the LTSS system redesign, ensuring the best possible outcomes for individuals with IDD and the most efficient use of Medicaid resources.

Compliance with Home- and Community-Based Services (HCBS) Settings Regulations

Texas continues efforts to comply with the federal HCBS settings regulations issued by CMS in March 2014. Compliance efforts include revising state rules and policies related to HCBS and conducting assessments to determine which settings may require submission to CMS for heightened scrutiny review. Before the final compliance deadline of March 2023, HHSC plans to replace its current day habilitation service in the 1915(c) waivers, with a new, more integrated service. HHSC is also amending the Texas Statewide Transition Plan for re-submission to CMS.

Preferred Drug List (PDL) Prior Authorizations (PA)

Senate Bill 1096, 86th Legislature, Regular Session, 2019 (S.B. 1096) directs HHSC to exempt STAR Kids members from all preferred drug list (PDL) prior authorizations (PAs) to meet the requirements of Section 533.005, Government Code (a)(23)(L), as added by S.B. 1096.

Specifically, S.B. 1096 removes all the PDL PAs for all members of the STAR Kids program except those PAs based on evidence-based clinical criteria and nationally recognized peer-reviewed information and those PAs designed to minimize waste,

fraud, or abuse. This amendment will not result in any changes to the formulary. This amendment, if approved will give a member the opportunity to be prescribed any drug whether the drug has preferred or non-preferred status, although a member will not have access to drugs not covered by Medicaid.

HHSC plans to submit a waiver amendment to propose waiving requirements in 42 C.F.R. §440.240, related to comparability of services for groups, because only members of the STAR Kids program will be allowed this option.

Community Attendant Workforce Development Strategic Plan

The Community Attendant Workforce Development Strategic Plan was submitted to the legislature and Governor's office pursuant to the 2020-21 General Appropriations Act, House Bill 1, 86th Legislature, Regular Session, 2019 (Article II, Health and Human Services Commission [HHSC], Rider 157). The strategic plan contains strategies related to recruiting and retaining community attendants and ensuring Medicaid recipients have adequate access to services. More specifically, the plan includes information and data about the community attendant workforce in Texas; feedback collected from stakeholders during a cross-agency forum and an online survey; and HHSC's long-term goals and recommendations for addressing challenges faced by individuals receiving community attendant care, as well as providers.

HHSC is currently working to implement the strategies identified in the Rider 157 report and explore stakeholder-provided long-term recruitment and retention recommendations. HHSC has implemented, or is in the process of implementing, the following initiatives:

- Launch a public relations campaign in collaboration with other state agencies and stakeholders to increase awareness of the role of community attendant workers and growing career opportunities in the field.

- ◊ HHSC, in partnership with Texas Workforce Commission, created a flyer and informational video about the benefits of attendant work. The digital resources have been shared with the Direct Service Workforce Development Taskforce and will be announced publicly via press release. HHSC continues to look for opportunities to bring awareness to the attendant career field.

- Dedicate resources at HHSC to coordinate and support a Workforce Development Taskforce.
  - ◊ The Direct Service Workforce Development Taskforce (DSW Taskforce) is a collaborative workgroup whose purpose is to explore long-term recruitment and retention (non-wage based) strategies within the community attendant, personal care attendant and direct service workforce. Representation on the DSW Taskforce includes partners, such as: people receiving attendant services and families working with attendants; people working as a community attendant; community organizations and councils that represent people with disabilities; local workforce development boards; Texas Workforce Commission and Texas Higher Education Coordinating Board. The DSW Taskforce held their first meeting in March 2021 and will meet every other month, or six times per year, for the next several years.
  - ◊ Add network adequacy measures for community attendants to the Medicaid managed care contracts.
  - ◊ HHSC is working to streamline the attendant hiring process in the Consumer Directed Services (CDS) option. HHSC staff are collaborating with the Texas Council on Consumer Direction Quality Assessment and Performance Improvement subcommittee to identify existing challenges and develop short-term and long-term strategies for improvement.

- ◊ Explore the use of Money Follows the Person funding towards specific goals outlined in the plan, including: opportunities for provider and direct service worker recruitment, education, training, technical assistance, and quality improvement activities.

HHSC submitted a proposal to CMS for Money Follows the Person capacity funding to assist with the projects associated with the DSW Taskforce. If awarded, the roughly $2.03 million funds would be used to hire contract staff to conduct several research reports, improve data collection efforts, review existing trainings, and conduct statewide awareness activities to promote the attendant field. In addition, funds would be dispersed to 11 local workforce development boards to implement local and regional recruitment and retention strategies for community attendants.

Long term goals included in the strategic plan include:

- Continue the Workforce Development Taskforce and engage stakeholders in a consistent effort to address attendant workforce issues, including creating a more detailed timeline and benchmarks for addressing stakeholder priorities identified in the cross-agency forum.
  - ◊ A project timeline, with dates through 2024, has been developed to explore the stakeholder-provided recommendations. Projects will meet two primary goals: enhance workforce development and improve data collection.
- In collaboration with the Workforce Development Taskforce, explore options for securing additional funding to enhance training for community attendants, including the expansion of online resources dedicated to workforce development.
- Continue collection of data regarding community attendant retention and turnover.

- Expand data collection and analysis efforts to study wage equity, service gaps, and other matters impacting individuals receiving community attendant services and providers of attendant services.
- Increase value-based payments between MCOs and providers of home and community-based services.

Maternal and Child Health

House Bill 133, 87th Legislature, Regular Session, 2021 (H.B. 133) directs HHSC to:

- Carve into Medicaid managed care targeted case management services for children and pregnant women;
- Transition Healthy Texas Women (HTW) program services, funded through the HTW 1115 waiver[3], to managed care; and
- Seek federal approval to extend Medicaid coverage to six months postpartum for women who deliver or experience an involuntary miscarriage.

HHSC plans to seek an amendment to the THTQIP 1115 waiver to carve in the case management services for children and women effective September 1, 2022. HHSC is researching necessary waiver authority for the postpartum eligibility extension.

New Benefits / Providers

Senate Bill 1136, 87th Legislature, Regular Session, 2021 (S.B. 1136) directs HHSC to:

- Coordinate with hospitals and other providers in the uncompensated care (UC) payment program to implement initiatives to reduce member use of hospital emergency services as a first option for all types of care. The plan may include a pilot program, other interventional programs, or initiatives developed and implemented in other states that have shown success in reducing the incidence of unnecessary treatment in hospital emergency rooms. Encourage Medicaid providers to continue implementing effective interventions and best practices associated with improvements in the

[3] https://www.medicaid.gov/medicaid/section-1115-demo/demonstration-and-waiver-list/83311

health outcomes of Medicaid recipients that were developed and achieved under DSRIP.

- House Bill 2658, 87th Legislature, Regular Session, 2021 (H.B. 2658) directs HHSC to implement several initiatives. The most relevant to the 1115 waiver is the provision that requires HHSC to provide basic preventive dental services for adults with a disability who are enrolled in STAR+PLUS but do not have access to dental services today.

Institutions for Mental Disease (IMD) Waiver

The General Appropriations Act for the 2022-2023 biennium, 87th Legislature, Regular Session, 2021 (Article II, HHSC, Rider 34) directs HHSC to apply for a Section 1115 IMD waiver if it has a net savings to the state.

1115 extension

The General Appropriations Act for the 2022-2023 biennium, 87th Legislature, Regular Session, 2021 (Article II, HHSC Rider 37) expressed the Legislature's intent that HHSC should seek a renewal or extension of the current Section 1115 Texas Healthcare Transformation and Quality Improvement Program waiver from CMS.

Texas Healthcare Transformation and Quality Improvement Program

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

6.Demonstration-related Appeals and Complaints

Complaints and Appeals Received by MCOs

The MCOs and DMOs are required to track and monitor the number of member complaints and appeals and provider complaints received, to ensure resolution occurs within 30 days of receipt. A 98% compliance standard is required.

SFY 21 data is in the process of validation. Data collection for MCO self-reported data for complaints and appeals performance measures transitioned to a new format in SFY20, requiring adjustments to submission, extraction, and reporting processes. As a result, reporting has been delayed for SFY21. However, the data for these measures will be included in a future 1115 report.

Complaints Received by the State

The State monitors complaints received by the Office of the Ombudsman Managed Care Assistance Team (OMCAT) and HHSC Managed Care Compliance and Operations (MCCO). The OMCAT unit continued to direct a managed care support network (MCSN) to better coordinate assistance provided to Medicaid managed care clients as mandated by the state legislature. The network of entities includes the Ombudsman Office, the Long-Term Care Ombudsman, the HHS Medicaid/CHIP Division, Aging & Disability Resource Centers (ADRCs), and Area Agencies on Aging.

Overall OMCAT and MCCO complaints in SFY21 Q3 were 1,662. ***Attachment O*** provides complaints performance summary.

OMCAT received a total of 972 complaints in SFY21 Q3 showing a 15% increase in complaints as compared to SFY21 Q2 at 844 total complaints. The percentage of change, by each program, between SFY1 Q2 and SFY21 Q3 is as follows:

- STAR (14% increase)
- STAR+PLUS (37% increase)

- STAR Kids (11% increase)
- Dental program (34% increase)

The top three complaint categories for OMCAT complaints in SFY21 Q3 were access to care, prescription services (PS), and claims/payment. The top three reasons for the Access to Care category are Access to In-Network Provider (non-PCP), Home Health, and Access to Out-of-Network Provider. The top three reasons for the Prescription Services category are PS-Other Insurance, PS-Other, and PS-Member Not Showing Active. The top two reasons for the Claims/Payment category are Balance Billing and Authorization Issue.

MCCO received a total of 16 legislative complaints in SFY21 Q3, representing a 60% increase as compared to the 10 legislative complaints received during SFY21 Q2. The percentage of change, by each program, between SFY21 Q2 and SFY21 Q3 is as follows:

- STAR (67% increase)
- STAR+PLUS (50% increase)
- STAR Kids went from one complaint to two (100% increase)
- Dental program had zero complaints

The primary reasons for legislative complaints in SFY21 Q3 were payment dispute, Medicaid policy, and MCO/provider contract - other.

MCCO received a total of 86 member complaints in SFY21 Q3 reflecting a 244% increase as compared to SFY21 Q2 at 25 total complaints. The percentage of change, by each program, between SFY21 Q2 and SFY21 Q3 is as follows:

- STAR (60% decrease)
- STAR+PLUS (353% increase)
- STAR Kids (200% increase)
- Dental program received one complaint in SFY21 Q2 and one complaint in SFY21 Q3 (no change).

The primary reasons for member complaints in SFY21 Q3 were member claim/billing issue, delays (claims handling), and utilization review referrals.

MCCO received a total of 588 provider complaints in SFY21 Q3 with a 26% increase as compared to SFY21 Q2 at 465 total complaints. The percentage of change, by program, between SFY21 Q2 and SFY21 Q3 is as follows:

- STAR (14% increase)
- STAR+PLUS (51% increase)
- STAR Kids (10% increase)
- Dental program had no change receiving 21 complaints in SFY21 Q2 and Q3.

The primary reasons for provider complaints in SFY21 Q3 were credentialing, payment dispute, and denial of claim.

Provider Fraud and Abuse

MCOs and DMOs are required to send referrals regarding Medicaid waste, abuse, or fraud to the HHSC Office of Inspector General (OIG). Please see ***Attachments R1 and R2*** for MCO and DMO provider referral details. These attachments reflect the current status of each case and these cases can have multiple dispositions; therefore, the disposition total will not add up to the total number of referrals received. The OIG received one fraud and abuse referral from MCOs and a total of 20 fraud and abuse referrals from DMOs in SFY21 Q3.

Claims Summary Reports

The MCOs and DMOs submit monthly claims summary reports (CSR) to HHSC for the following services: acute care, behavioral health (BH), vision services, pharmacy claims, and long-term services and supports (LTSS). The standards for the clean claims and appealed claims follow:

- appealed claims adjudicated within 30 days: >98%
- clean claims adjudicated within 30 days: >98%
- clean claims adjudicated within 90 days: >99%
- clean electronic claims adjudicated within 18 Days: >98%
- clean non-electronic (paper) claims adjudicated within 21 Days: >98%

Because of the time required for data collection, claims summary counts are reported on a one-quarter lag. Attachment V1 provides claims summary for the STAR program. Attachment V2 provides claims summary for the STAR+PLUS program. Attachment V3 provides claims summary for the Dental program. Attachment V4 provides claims summary for the STAR Kids program.

All MCOs were in compliance with the claim adjudication standards for Q2 month three. Q1 and Q2 data are found in the attachments.

6.1 Anticipated Changes to Appeals

The state does not anticipate changes to appeals at this time. HHSC plans to add an External Medical Review process to the existing appeal process and is planning to implement this process in SFY 2022.

7. Quality

The impact of the public health emergency on quality measures is expected to be significant due to members delaying or avoiding preventive and primary care. There is also the potential for emergency department utilization to increase. Due to these impacts,

- HHSC is unable to compare 2020 quality measure performance, and the benchmarks established based on the prior year's performance, to last year's performance. Therefore, for calendar year 2020, which includes Q1 of SFY 2021, the medical and dental Pay-for-Quality (P4Q) programs will be suspended. No premium recoupments or distributions will occur based on calendar year 2020 performance. No decision has been made regarding calendar year 2021 which includes Q2 of SFY 2021.
- MCOs had difficulty obtaining enough medical records from providers to meet the minimum sample requirement for Encounter Data Validation (EDV). Texas requires HHSC to use the External Quality Review Organization (EQRO) EDV deliverable to monitor both MCOs and DMOs. HHSC now requires MCOs to meet a minimum sample size of medical records with a 90% compliance rate on the data collected and reviewed from those records. MCOs that do not meet one or both requirements are subject to corrective action plans. For measurement year 2020, corrective action plans will be replaced with Plans of Action, which are the lowest level of contract remediation. This action was taken due to the impact of the COVID pandemic.
- HHSC extended active health plan performance improvement projects (PIPs) for an additional year. 2019 PIPs were scheduled to conclude December 2020 but will now conclude December 2021. 2020 PIPs were scheduled to conclude December 2021 but will now conclude December 2022.

Additionally, based on the EQRO's comparative analysis of changes to the Healthcare Effectiveness Data and Information Set (HEDIS) specifications for the prenatal and postpartum care measure, HHSC is using administrative rates for the HEDIS 2020 PPC prenatal sub-measure, which is a departure from prior years where the hybrid specifications were used.

8. HCBS Quality Assurance Reporting

This update will be provided in the annual report.

Texas Healthcare Transformation and Quality Improvement Program

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

10. Financial/Budget Neutrality

This section addresses the quarterly reporting requirements regarding financial and budget neutrality development and issues. The budget neutrality workbook is on a one-quarter lag (see Attachment P). However, the tables below provide information on eligibility groups in budget neutrality calculations.

DY10 Q3 April – June 2021

Eligibility Groups Used in Budget Neutrality Calculations

Eligibility Group	Month 1 (April 2021)	Month 2 (May 2021)	Month 3 (June 2021)	Total for Quarter Ending 6/2021
Adults	478,501	494,340	509,431	1,482,272
Children	3,136,698	3,182,646	3,223,403	9,542,748
AMR	352,131	352,632	353,386	1,058,149
Disabled	420,945	422,532	423,939	1,267,416

Eligibility Groups Not Used in Budget Neutrality Calculations

Eligibility Group	Month 1 (April 2021)	Month 2 (May 2021)	Month 3 (June 2021)	Total for Quarter Ending 6/2021
Foster Care	46,275	47,328	48,372	141,975
Medically Needy	114	114	114	342
CHIP-Funded	358,780	365,967	373,863	1,098,611
STAR+PLUS 217-Like HCBS	18,775	18,568	18,481	55,824

10.1 Anticipated Changes to Financial/Budget Neutrality

The state does not anticipate future changes to budget neutrality at this time.

Texas and CMS negotiated and agreed to specific Budget Neutrality terms included in the January 15, 2021 approval. Without these terms, a fiscal cliff of more than $3 billion looms and creates financial uncertainty for Texas Medicaid and the network of providers serving beneficiaries.

Texas submitted an extension application on July 14, 2021 that includes these vital terms to provide the security and sustainability necessary for the Texas Medicaid program to serve over 4 million clients through Medicaid Manage Care under the 1115 authorization. CMS deemed the application complete on July 28, 2021.

Demonstration Year DY10: October 1, 2020 – September 30, 2021

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

11.Demonstration Operations and Policy

Public Health Emergency

Texas Health and Human Services has commissioned work resulting in a report titled, "Impact of COVID-19 on Vulnerable Populations in Texas." The report includes a review of the public health emergency on Medicaid and CHIP. The first report was issued in January 2021.

The report includes indirect effects of COVID-19 on health, behaviors, and health services. There is also a section dedicated to reviewing the data for Texas Medicaid and CHIP to better understand the impact of the public health emergency on Texas Medicaid. Observations at this time include the following:

- Between March 2020 and July 2020, 194,905 Medicaid and CHIP clients were tested for COVID-19. During this same period, 51,120 clients received a service with a COVID-19 diagnosis. Note that diagnosis and test counts cannot be used to calculate a positivity rate. Some clients receive tests or services outside of the Medicaid program so the calculation would not be accurate.
- As of July, the Medicaid and CHIP programs spent $15.6 million on COVID-19 testing and $108.9 million to provide services to clients diagnosed with COVID-19.

Procurement Activities

HHSC has created a plan to procure new contracts for STAR+PLUS, STAR, and STAR Kids according to the estimated timeline below.

STAR+PLUS

- RFP Posting: Q2 FY2022

- Estimated Notice of Award: Q3 FY2022
- Start of Operations: Q1 FY2024

STAR

- RFP Posting: Q1 FY2023
- Estimated Notice of Award: Q2 FY2023
- Start of Operations: Q4 FY2024

STAR Kids

- RFP Posting: Q3 FY2023
- Estimated Notice of Award: Q4 FY2023
- Start of Operations: Q2 FY2025

Extension Application

Difficulties operating the 1115 Transformation waiver emerged with the letter from CMS that purported to rescind the January 15, 2021 approval. The Texas 1115 Transformation waiver provides the authority under which most of Medicaid manage care is authorized and serves over 4 million clients. Without the terms previously negotiated and agreed to, Medicaid managed care, quality and access incentive programs within Medicaid managed care, supplemental payments made possible through managed care savings, and various initiatives aimed at continuous improvement of the program are at risk.

Texas is taking steps to seek a sustainable program through the DSRIP program transition while responding to the COVID-19 public health emergency. A fiscal cliff of more than $3 billion looms as a result of the rescission and with the waiver ending on September 30, 2022. Texas has sought legal redress and submitted an extension application on July 14, 2021. CMS issued a completeness letter to Texas on July 28, 2021.

---

12. Litigation Summary

Consideration 1:

Type of Consideration	*Ongoing litigation*
Summary of Consideration	*Frew, et al. v. Phillips, et al.* (commonly referred to as *Frew*), was filed in 1993, and was brought on behalf of children under age 21 enrolled in Medicaid and eligible for Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefits. The class action lawsuit alleged that the Texas EPSDT program did not meet the requirements of the Federal Medicaid Act. The lawsuit was settled by a consent decree in 1996. The decree requires numerous state obligations and is monitored by the Court. In 2000, the court found the State defendants in violation of several of the decree's paragraphs. In 2007, the parties agreed to eleven corrective action orders to bring the state into compliance with the consent decree and to increase access to EPSDT benefits. Currently, four of the eleven corrective action orders and their related consent decree paragraphs are fully dismissed: (1) Check-Up Reports and Plans for Lagging Counties, (2) Prescription and Non-Prescription Medications, Medical Equipment, and Supplies, (3) Transportation Program, and (4) Health Care Provider Training. In 2014, the parties jointly agreed to vacate most of the Toll-Free Numbers corrective action order, and the related consent decree paragraphs. One toll-free number remains under the corrective action order and court monitoring. Another corrective action order was dismissed in December 2020 and is currently on appeal to the Fifth Circuit: Outreach and Informing, along with Part III of corrective action order: Managed Care.

Date and Report in Which Consideration Was First Reported	The lawsuit was filed on September 1, 1993. The consent decree was entered on February 20, 1996. The eleven corrective action orders were entered on April 27, 2007.
Summary of Impact	The consent decree and corrective action orders touch upon many program areas, and generally require the state to take actions intended to ensure access, or measure access, to Medicaid services for children. The Texas Medicaid program must consider these obligations in many policy and program decisions for Medicaid services available for persons under age 21.
Estimated Number of Beneficiaries	Estimated (as of January 2021) at 3,423,289.
If Issue, Remediation Plan and Timeline for Resolution / Updates in Status if Previously Reported.	HHSC and DSHS will continue to follow the obligations in the remaining portions of the consent decree and corrective action orders until they are dismissed by the court.

State Fiscal Year FY21: September 1, 2020 – August 31, 2021

Submitted on August 27, 2021

13.Health IT Strategic Plan Update

Updates were made to Strategies 1, 3 and PULSE in this report.

Health Information Exchange (HIE) Connectivity Project Update

The HIE Connectivity Project is a Texas Medicaid initiative funded by CMS through the HIE Implementation Advance Planning Document (IAPD). The project's three strategies, one initiative, and associated goals/milestones were described in the Health Information Technology (HIT) Strategic Plan approved by CMS in May of 2020. Successful implementation of the three strategies will result in increased HIE adoption and use by Medicaid providers, creation of new HIE capacity in Texas, and bring clinical information into the Texas Medicaid program through HIE. The following is an update regarding progress made for each strategy, as well as the Patient Unified Lookup System for Emergencies (PULSE) initiative.

HIE IAPD Strategies 1-3

The FFY 2020/2021 milestone for Strategy 1 of the HIE Connectivity Project, as listed in the HIT Strategic Plan, is 200 Medicaid providers (including hospitals and ambulatory providers) connected to Local HIEs. Currently, three Local HIEs have contracted with HHSC to onboard and connect Medicaid providers and hospitals. These connections will facilitate electronic reporting and data exchange between providers and Texas Medicaid. As of June 30, 2021, 298 providers from 26 hospitals and 59 ambulatory practices have been approved, through this project, to join with the three Local HIEs. Nineteen of these hospitals are connected for Emergency Department Event Notification (EDEN) only. The Texas Health Services Authority (THSA) is also making direct connections with hospitals. As of June 30, 2021, THSA has made 38 direct connections.

Strategy 2 includes enhancing Texas' HIE infrastructure to support connectivity with the state's Medicaid system and assisting Local HIEs in implementing connections to HIE Texas, a set of state-level shared services managed by THSA. The FFY 2020/2021 milestones for this strategy, as listed in the HIT Strategic Plan, were implementation of a Master Patient Index (MPI) and eight HIEs connected to THSA as an outcome of this project. While the MPI has been implemented and infrastructure is in place to connect to Local HIEs, the original goal of eight HIEs connected to THSA has since been revised, as there are only 5 Local HIEs currently in existence in Texas. All three Local HIEs contracted through this project are connected to THSA

Strategy 3 assists Texas Medicaid in reducing emergency department (ED) utilization and hospital readmissions by enabling better follow-up care through the electronic receipt of Health Level Seven (HL7) Admission, Discharge, Transfer (ADT) data from hospitals. The FFY 2020/2021 milestone for this strategy, as listed in the HIT Strategic Plan, was for eight Local HIEs to contribute hospital ED ADT data as an outcome of this project. Currently, all three Local HIEs contracted through Strategy 1 have successfully transferred ADT, as well as Consolidated Clinical

Document Architecture (C-CDA) data in near real-time, through THSA to Texas Medicaid. Two of these Local HIEs are sending ED ADT data. HHSC is still in the process of building storage and accessibility for receiving and distributing this data to the appropriate departments and organizations.

PULSE (Initiative 1)

HHSC is working with THSA on PULSE. Texas is improving its ability to provide patient medical information to qualified first responders during state and federal disasters, and has built PULSE software, infrastructure, and connectivity to HIEs. The FFY 2020/2021 milestone for this initiative, as described in the HIT Strategic Plan, is to develop a plan and the PULSE application, as well as to test and launch the application and implement the program. The upgraded PULSE Enterprise Edition (PULSE EE) is live this Hurricane season and ready to be activated for a state or federally declared disaster.

14. Demonstration Evaluation Update

HHSC completed the following 1115 Waiver evaluation activities during SFY21 Q3:

- HHSC met with the Principal Investigator Texas A&M University (TAMU) during SFY21 Q3 to discuss analyses for the Interim Report due to CMS by September 30, 2021.
- HHSC analysts explored the feasibility of options to expand upon Texas' External Quality Review Organization's STAR Kids study.
- HHSC received feedback from CMS on Revision 5.1 of the CMS-approved evaluation design on April 5, 2021. HHSC analysts were still considering responses to CMS feedback at the end of SFY20 Q3.
- HHSC attended TAMU's presentation on preliminary findings for the Interim Report on April 8, 2021.
- HHSC received the Draft Interim Report from TAMU on May 28, 2021. HHSC began reviewing the Interim Report.
- HHSC analysts continued drafting an evaluation design for the extension period.

15. Delivery System Reform Incentive Payment Program

The Delivery System Reform Incentive Payment (DSRIP) Program evolved from project-level reporting in DY1-6 to provider-level outcome reporting in DY7-10 to measure the continued transformation of the Texas healthcare system. DSRIP providers report on required categories at the provider system level, rather than the project level. Regional Healthcare Partnerships (RHP) updated their RHP Plans during DY9 Q1, which HHSC reviewed and approved. This included providers updating their outcome measures selection and activities for reporting during DY9-10.

Providers continued to report performance achievement of DY9 Category B Medicaid and low-income or uninsured (MLIU) patients served DY8 and DY9 Category C measures, and DY10 Category D measures in April 2021. In total for October DY9 reporting and based on available Intergovernmental Transfer (IGT), $2,463,875,526 was paid for DSRIP in July 2021, for a total of $22.3 billion in DY1-10 DSRIP payments to date. ***Attachment X*** includes DSRIP providers' overall status for April DY10 reporting. ***Attachment Y*** provides estimated remaining payments for DY9-10.

In light of the significant impact of the COVID-19 public health emergency, HHSC and CMS agreed on flexibility for reporting and demonstrating achievement on certain reporting requirements for DY9 and DY10. The totals above reflect providers' use of the approved flexibilities. CMS approved a COVID-19 accommodation for Category B including:

- Broadening the definition of an encounter to include patient telephone calls for DY9-10.
- Allowing HHSC to adjust allowable variation.

CMS approved a COVID-19 accommodation for DY9 Category C including:

- Earning payment for DY9 achievement milestones based on the higher of a provider's approved DY8 achievement, the statewide average approved DY8 achievement per measure or measure bundle, or DY9 achievement in calendar year (CY) 2020.
- Using the average approved DY8 achievement per bundle measure as the minimum payment for a provider's DY9 achievement milestone for measures that have been selected by 10 or fewer providers.
- Requiring providers to report CY 2020 data to be eligible for payment on the Category C DY9 achievement milestones.

In April DY10, 2,826 Category C measures were eligible to report Performance Year 3 (PY3, which is 01/01/20 – 12/31/20) to potentially earn payment for remaining DY8 achievement milestones and DY9 reporting and achievement milestones. Of the 3,228 achievement milestones (pay-for-performance) that were approved for Performance Year (PY) 3 (CY 2020) reporting in April 2021, 1,146 (or 36%) used the approved COVID-19 accommodations to earn payments. Providers earned $445,848,417.85 in payments that they would not have earned without the approved COVID-19 accommodations. Overall, 82.35% of measures were reported in April 2021 as fully achieving the DY9 goal in PY3, and an additional 17.49% of measures reported partially achieving the DY9 goal in PY3. For remaining DY8 achievement, 31.24% of measures were reported in April 2021 as fully achieving the DY8 goal in PY3, and an additional 68.13% of measures reported partially achieving the DY8 goal in PY3. DSRIP continues to provide technical assistance to correct Category C reported baselines and performance. The table below provides a summary of reported achievement by measure type and **Attachment Z** includes all Category C reporting and summaries by measure, Measure Bundle, provider type, measure type, and region.

Measure Type	**P4P Measures Eligible to Report PY3 in DY10**	**P4P Measures that have reported PY3 (CY20) in DY10**	**P4P 100% of AM-9.x Goal Achieved in PY3**	**P4P Partial Achievement of AM-9.x Goal in PY3**	**P4P 100% of AM-8.x Goal Achieved in PY3**	**P4P Partial Achievement of AM-8.x Goal in PY3**
Cancer Screening	112	89.47%	81.37%	18.63%	23.08%	76.92%
Clinical Outcome	524	93.54%	75.94%	24.06%	28.99%	71.01%

All Measures	**2826**	92.80%	82.35%	17.49%	31.24%	68.13%

**Data includes only measures with a baseline that ends 12/31/2017 and does not include measures with a delayed baseline.*

DSRIP Transition Plan Update

In June 2021, HHSC submitted to CMS three deliverables under the Transition Plan:

- Assessment of financial incentives for alternative payment models and quality improvement cost guidance.
- Assessment of Texas Medicaid rural teleservices.
- Report on options for RHP structure post-DSRIP.

As contemplated in the January 15, 2021 extension approval[4] and consistent with the DSRIP transition, HHSC submitted in March 2021 preprints for four new directed payment programs to begin September 1, 2021.[5] As indicated in the DSRIP Transition Plan DY11 new program proposals deliverable submitted to CMS in December 2020, these programs are key to the DSRIP Transition. The programs include new reporting requirements, quality measures, and payments through Medicaid managed care. They are:

- Texas Incentives for Physician and Professional Services (TIPPS)
- Comprehensive Hospital Increased Reimbursement Program (CHIRP)
- Rural Access to Primary and Preventive Services (RAPPS) Program
- Directed Payment Program for Behavioral Health Services (DPP BHS)

The September 1, 2021 start date for all of the proposed directed payment programs aligns with our Medicaid managed care rating period.

4 The directed payment programs were included in the January 15 STCs under section G, DELIVERY SYSTEM AND PROVIDER PAYMENT INITIATIVES IN MANAGED CARE CONTRACTS.

5 HHSC also submitted a pre-print for the Quality Incentive Payment Program, which is unrelated to the DSRIP transition.

- The January 15, 2021 extension also includes a new program, the Public Health Provider Charity Care Pool (PHP CCP)[6]. The PHP CCP concept was included in the DSRIP Transition Plan DY 11 new program proposals deliverable submitted to CMS in December 2020.
- The PHP CCP is authorized to begin on October 1, 2021. This program will offset certain costs associated with care, including behavioral health, immunizations, chronic disease prevention, and other preventive services for the uninsured. Participation is limited to public health providers: Local Health Departments, Public Health Districts, Community Mental Health Centers, Local Mental Health Authorities, and Local Behavioral Health Authorities.
- HHSC is continuing work on other Transition deliverables. HHSC holds quarterly Partner Engagement and Executive Waiver Committee meetings and provides monthly updates to keep all interested stakeholders informed on the progress of the DSRIP Transition.
- Difficulties operating the 1115 Transformation waiver emerged with the letter from CMS that purported to rescind the January 15, 2021 approval. Without the terms previously negotiated and agreed to, Medicaid managed care, quality and access incentive programs within Medicaid managed care, supplemental payments made possible through managed care savings, and various initiatives aimed at continuous improvement of the program are at risk. Texas has sought legal redress and submitted another extension application on July 14, 2021. CMS issued a completeness letter to Texas on July 28, 2021.

[6] The PHP CCP can be found in the January 15 STCs under section V, FUNDING POOLS UNDER THE DEMONSTRATION.

16. Post Award Public Forum

The state has provided the summary of the post-award forum (due for the period during reporting during which the forum was held and in the annual report).

HHSC hosted a public forum via webinar on June 21, 2021 to provide the public with updates on the Texas Healthcare Transformation and Quality Improvement Program (THTQIP) 1115 waiver. The previous public forum was held on June 22, 2020 and was conducted via webinar. The date, time, and location of the public forums were published on HHSC's website 30 days in advance of the meetings.

During the June 2021 public forum the public was provided with an update on the following Transformation waiver topics: Health Information Technology (IT) Strategic Plan, Delivery System Reform Incentive Payment program (DSRIP), Uncompensated Care, Amendment Updates and Evaluation Design Plan. Links to the 1115 DY9 annual report and COVID-19 resource pages was also provided to the public. Public comment was also received and documented at this meeting. Comments received related to Medicaid expansion and HIT. Requests for the PowerPoint presentation and agenda were received from some stakeholders. The presentation and agenda were posted to the HHSC website.

In compliance with STC 79, HHSC hosted a public forum via webinar on July 14, 2021 to provide the public with updates on the progress of Texas Healthcare Transformation and Quality Improvement Program (THTQIP) waiver extension that was approved on January 15, 2021. The date, time and location of the public forum was published on the HHSC website 30 days in advance of the meeting. During the public forum, HHSC provided an update on the extension, upcoming amendments, and provided a link to the 1115 DY9 annual report and COVID-19 resource pages. HHSC provided an opportunity for public comments. During the forum HHSC

received general questions about the presentation and public comments regarding expanding Medicaid, PHP-CCP funding, the DSRIP program, and the state directed payment program for behavioral health services.

17. Report Attachments

Attachment A - Managed Care Organizations by Service Delivery Area. The attachment includes a table of the health and dental plans by Service Delivery Area.

Attachment B1 - Enrollment Summary (SFY21). The attachment includes annual and quarterly Dental, STAR, STAR Kids and STAR+PLUS enrollment summaries.

Attachment B2 – Disenrollment Summary (SFY21). The attachment includes annual and quarterly Dental, STAR and STAR+PLUS disenrollment summaries.

Attachments C1, C2, C3 - Provider Network and Methodology. The attachments summarize STAR, STAR Kids, and STAR+PLUS network enrollment by MCOs, SDAs, and provider types. It also includes a description of the methodology used for provider counts and terminations.

Attachments D - Out-of-Network Utilization. The attachments summarize Dental, STAR, STAR Kids, and STAR+PLUS out-of-network utilization.

Attachments C1 - Provider Network Methodology. The attachments includes a description of the methodology used for provider counts and terminations.

Attachment E - Distance Standards. The attachment shows the State's distance standards by provider type and county designation.

Attachment H1-H4 - Network Access Analysis. The attachments include the results of the State's analysis for PCPs, main dentists, and specialists.

Attachment O - Complaints to HHSC. The attachment includes information concerning Dental, STAR, STAR Kids, and STAR+PLUS complaints received by the State.

Attachment P - Budget Neutrality. The attachment includes actual expenditure and member-month data as available to track budget neutrality.

Attachment Q - Members with Special Healthcare Needs Report. The attachment represents total MSHCN enrollment in STAR, STAR Kids, and STAR+PLUS during the prior fiscal year.

Attachment R1-R2 – Provider Fraud and Abuse. The attachments represent a summary of the referrals that STAR, STAR Kids, STAR+PLUS, and Dental Program plans sent to the OIG during the biannual reporting period.

Attachments V1-V4 - Claims Summary (SFY20). The attachments are summaries of the MCOs' claims adjudication results.

Attachment X - DSRIP Provider Summary.

Attachment Y - DSRIP Remaining Payments. Reported biannually after DSRIP payments are distributed.

Attachment Z - DSRIP Category C Summary Workbook.

Attachment C1

Provider Network Count Methodology - FY21

PROVIDER TYPES

Primary care provider (PCP) and specialist counts are based on the provider network files submitted by MCOs. The data is validated using the Medicaid Master Provider File. Unique provider counts are generated using the National Provider Identifiers (NPIs). The NPI is the standard unique identifier for health-care providers, and is required to enroll as a Texas Medicaid provider. The provider count data represents a snapshot in time and shows the number of unique providers for the last month of the quarter.

HHSC reporting requirements for the MCOs restricts PCP validity to certain provider specialty codes. The network counts are based on all PCPs with open panel included in the MCO provider files, which includes traditional and non-traditional provider types listed in Appendix A, as well as other provider types that may have agreed to serve as a PCP for a particular member with special needs.

The specialist count includes all specialty provider types listed in Appendix B. Since a provider may be represented in both the PCP count and Specialist count, the combined total may include duplications.

Dental provider counts are broken down by main dentists and dental specialists. For DMOs, the PCP column shows the number of main dentists (general or pediatric) with open panel. The specialist column includes endodontists, orthodontists, pediatric dental, and prosthodontists.

Pharmacy counts include the following pharmacy providers: pharmacy, 24 Hour Pharmacy, and Mail Order Pharmacy.

PROVIDER TERMINATIONS

PCP and Specialists terminations counts are based on self-reported data from the MCOs. The MCOs reported a variety of reasons for provider termination, including providers failed to re-credential, termination requested by provider, MCO terminated for cause, provider left group practice, and provider retired and provider closed practice.

D-047 CMS NARRATIVE SUMMARY REPORT

Helping Government Serve the People.®

MAXIMUS®

December 2020 – May 2021

1.1 MAIL SUMMARY

The Enrollment Broker Correspondence and Materials Development (CMD) unit continued its efforts throughout the reporting period to inform Managed Care recipients about their medical and dental enrollment options in Managed Care areas.

Table 1.1A details Medicaid Managed Care (MMC) Medical and Dental monthly mailing activities completed by CMD during the reporting period.

Monthly Ongoing Mailings								
Mail Type	**Dec-20**	**Jan-21**	**Feb-21**	**Mar-21**	**Apr-21**	**May-21**	**Bi-Annual Totals**	**Average per Month**
STAR	63,799	57,894	57,582	57,442	53,342	49,618	**339,677**	**56,613**
STAR Kids	1,247	1,515	3,415	1,049	1,227	1,176	**9,629**	**1,605**

MMC Dental	54,186	48,987	50,075	48,672	44,480	41,934	**288,334**	**48,056**

(Table 1.1A) Mail Summary: The table shows the total and average volumes mailed for the MMC Medical and Dental programs

1.2 COMMUNITY OUTREACH SUMMARY

To mitigate the spread of COVID-19 and to protect the health and welfare of Texans, EB Outreach suspended face to face/in-person community and client outreach — including home visits, presentations, community contacts, and enrollment events — on March 17, 2020, until further notice. During this suspension, outreach will increase their phone call attempts to clients, make community contacts by phone, and attend meetings remotely when possible.

Maximus completes outbound outreach via telephone to Medicaid Managed Care clients. Table 1.2A summarizes overall outbound call attempts to MMC clients for the reporting period.

Outbound Activity – MMC								
Program	**Dec-20**	**Jan-21**	**Feb-21**	**Mar-21**	**Apr-21**	**May-21**	**Bi-Annual Totals**	**Average per Month**
Medicaid Managed Care Outbound Attempts	60,503	54,018	47,282	66,312	62,316	56,936	**347,367**	**57,895**

(Table 1.2A) MMC Outbound Call Activity

Throughout the reporting period, outreach staff members completed a total of 8,797 field events for the Medicaid Managed Care Program through conference call functionality. Field events include enrollment events, community meetings, presentations, and health fairs. Please note all activities were done remotely via virtual technology (Zoom or Microsoft Teams) due to the suspension of face-to-face activities to mitigate COVID-19.

Table 1.2B summarizes EB Outreach activities throughout the reporting period.

Community Outreach Activities – MMC								
Task	**Dec-20**	**Jan-21**	**Feb-21**	**Mar-21**	**Apr-21**	**May-21**	**Bi-Annual Totals**	**Average per Month**
MMC Home Visit Attempts	0	0	0	0	0	0	**0**	**0**
MMC Home Visit Requests	0	0	0	0	0	0	**0**	**0**
MMC Enrollment Events	0	0	0	0	0	1	**1**	**0**
MMC Presentations (non-enrollment event)	22	28	43	64	57	52	**266**	**44**

* The number without service plans includes those who declined and those who could not be reached.

** Percentages represent the proportion of MSHCN without service plans who declined Service Management or whom the MCO was unable to reach. Member with Special Health Care Needs (MSHCN): A member including a child in the Department of State Health Services (DSHS) Children with Special Health Care Needs (CSHCN) Program as further defined in Texas Health & Safety Code § 35.0022, who: (1) has a serious ongoing illness, a Chronic or Complex Condition, or a Disability that has lasted or is anticipated to last for a significant period of time, and (2) requires regular, ongoing therapeutic intervention and evaluation by appropriately trained health care personnel.
