

Medicaid and CHIP National Summary of Renewal Outcomes – April 2024 and National Summary to Date

July 2024

National Summary of Renewal Outcomes

- This National Summary of Renewal Outcomes provides an overview of Medicaid and Children’s Health Insurance Program (CHIP) renewal data since March 2023, when states began resuming their regular processes for renewing individuals’ coverage after the end of the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition.
- States must submit specific metrics about Medicaid and CHIP renewals initiated and completed for a cohort in a given month using the “Unwinding Eligibility and Enrollment Data Reporting Template” (Unwinding Data Report).
- The data in this summary include metrics required by the Consolidated Appropriations Act, 2023 (CAA, 2023), as well as other state-reported data and calculations that provide additional context to understand renewal outcomes.
- For more information on this data set as well as methodologies and limitations, see the Data Sources and Metrics Definitions Overview under the [“Understanding the Data” tab](#).
- State-specific notes for the data can be found in the [Medicaid and CHIP CAA Reporting Metrics](#).
- Additional data are available at [Medicaid.gov/unwinding-data](https://www.Medicaid.gov/unwinding-data).

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **Medicaid and CHIP renewal outcomes are reported by cohort.** States report outcomes for all individuals in the month in which renewals for the cohort are due, even if some renewals were completed in a prior month.
- **States began unwinding in February, March, or April 2023** by initiating their first cohort of renewals. Due to a number of factors, including state adoption of mitigation strategies, delays in procedural disenrollments, or state adoption of other CMS-approved strategies, states will complete unwinding-related renewals at different times. Please see [Preliminary State Timelines document](#).
- Starting with the February 2024 reporting period, national renewal data will no longer reflect only work done as part of unwinding processes and will begin to reflect routine renewal processing as well.
- In the April 2024 reporting period, state-reported data may reflect (1) routine renewal initiation data, (2) unwinding renewal initiation or outcome data, or (3) a combination of unwinding renewal initiation and outcome data, as well as routine renewal initiation data.

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **The length of states' renewal process varies.** Most states take between 45 and 90 days to complete renewals for a cohort. As a result, states are completing renewals on different schedules and will report outcomes in different months.
- During their unwinding periods, states have had flexibility in how to distribute Medicaid and CHIP renewals, and nearly half of states (22) elected to conduct renewals for individuals identified by the state as likely ineligible for Medicaid and/or CHIP in the early months of unwinding.
- For more information on state renewal timelines and prioritization of renewals, please [see 2023 State Timelines for Initiating Unwinding-Related Renewals](#).

Context and Data Notes: Interpreting Renewal Outcomes

- Multiple factors, including state-adopted mitigations and other strategies, may influence renewal outcomes and reporting in a state. For example:
 - States with an *ex parte* mitigation strategy that uses data sources to complete a renewal after a form is sent may report those renewals as completed based on the return of a renewal form and underreport the number of individuals renewed on an *ex parte* basis.
 - Some states are temporarily holding some or all procedural terminations as a mitigation strategy to ensure compliance with federal renewal requirements or have voluntarily implemented a strategy to delay procedural terminations to conduct additional outreach. These states may report zero procedural terminations and/or a significantly higher share of pending renewals at the end of a reporting month.
 - Some states have restored eligibility for people initially found ineligible due to systems or other errors. This is frequently not identifiable in the data.
 - State-specific data will vary based on states' unwinding timelines and whether a state has completed unwinding-related renewals.
- Please consider these factors, states' distribution and prioritization of renewals, and other information when interpreting renewal outcomes and comparing information across states. Data limitations in the [Medicaid and CHIP CAA Reporting Metrics](#) provide additional state-specific information.
- For additional information, see:
 - [COVID-19 PHE Unwinding Section 1902\(e\)\(14\)\(A\) Waiver Approvals](#), and
 - [Summary of State Mitigation Strategies for Complying with Medicaid Renewal Requirements](#)

Context and Data Notes: Holding Procedural Terminations

- Among states that had a cohort of unwinding-related renewals due in the following month(s), these states paused some or all procedural terminations:
 - **March 2023 cohort:** ID
 - **April 2023 cohort:** ID, OK, and WY
 - **May 2023 cohort:** DE, KS, KY, ME, WV, and WY
 - **June 2023 cohort:** AK, DC, DE, IL, IA, KS, KY, ME, MI, MN, MO, NJ, NY, OK, SC, WV, and WY
 - **July 2023 cohort:** AK, DC, DE, IL, IA, KS, KY, ME, MI, MN, MO, NJ, NY, OK, SC, WV, and WY
 - **August 2023 cohort:** DC, DE, IL, KS, KY, MD, ME, MI, NJ, NY, SC, and VA
 - **September 2023 cohort:** AK, CO, DC, DE, HI, ID, IL, KS, KY, MD, ME, MI, NH, NJ, NM, NV, NY, OR, SC, VA, VT, and WV
 - **October 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, MD, ME, MI, MN, NH, NJ, NM, NV, NY, OR, VT, and WV
 - **November 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, MN, NH, NJ, NM, NV, NY, OR, and VT
 - **December 2023 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, MN, NH, NJ, NM, NV, NY, OR, and VT
 - **January 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NM, NY, OR, and VT
 - **February 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NM, NY, and OR
 - **March 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NJ, NM, NY, and OR
 - **April 2024 cohort:** AK, CO, DC, DE, IL, KS, KY, ME, MI, NH, NJ, NM, NY, OR, and VT
- States report renewal outcomes by cohort in the month the renewal is due. In most states, the effective date for procedural terminations is the beginning of the following month in which the renewal was due (e.g., procedural terminations for renewals due and reported in the month of March would have an effective termination date of April 1).

April 2024 National and State Renewal Outcome Data

Monthly Data Reports | Medicaid

National Summary of Outcomes of Medicaid and CHIP Renewals Due in April 2024

	Number	Percent of beneficiaries due for renewal in the reporting month
Total number of beneficiaries due for renewal in the reporting month	6,447,707	100.0%
Beneficiaries due for renewal in the reporting month whose coverage was renewed	4,364,615	67.7%
Renewed for Medicaid or CHIP on an <i>ex parte</i> basis (based on available information)	3,250,730	50.4% (74.5% of total renewed)
Renewed for Medicaid or CHIP based on return of a renewal form	1,113,885	17.3% (25.5% of total renewed)
Beneficiaries due for renewal in the reporting month whose coverage was terminated	1,156,711	17.9%
Determined ineligible for Medicaid or CHIP based on the return of a renewal form	430,832	6.7% (37.2% of total terminated)
Terminated from Medicaid or CHIP for a procedural or administrative reason	725,879	11.3% (62.8% of total terminated)
Beneficiaries due for renewal in the reporting month whose renewal was pending at the end of the month	926,381	14.4%

These data represent the outcome of renewals due in April 2024 (effective May 1st, 2024). Numbers and percentages may not sum due to rounding.

10 **Source:** State Medicaid and CHIP Renewal and Termination Data for the Unwinding Data Report as of June 11, 2024. Georgia reported data for individuals who continue to be eligible following a change in circumstances and were granted a new 12-month eligibility period during the reporting period, along with data on individuals due for renewal in the month. South Dakota did not initiate or complete renewals in the reporting period due to a mitigation strategy for ex parte functionality.

Snapshot on Status of Renewal Outcomes March 2023-April 2024

National Summary of Outcomes of Medicaid and CHIP Renewals, March 2023-April 2024*

	To Date (March 2023 – April 2024)
Total Renewals Initiated	93.2 million
Total Renewals Due	82.8 million (100%)
Individuals Renewed in Medicaid or CHIP Coverage	47.1 million (57% of total due)
Renewed on an <i>ex parte</i> basis	31.6 million (38% of total due) (67% of total renewed)
Determined eligible based on renewal form	15.4 million (19% of total due) (33% of total renewed)
Individuals Disenrolled from Medicaid or CHIP Coverage	18.7 million (23% of total due)
Determined ineligible for Medicaid or CHIP based on the return of a renewal form	5.8 million (7% of total due) (31% of total terminated)
Disenrolled for procedural reasons	13.0 million (16% of total due) (69% of total terminated)
Pending/Incomplete Renewals at the End of the Month	17.1 million (21% of total due)

*See [companion spreadsheet](#) for March 2023-April 2024 state-level data

Notes:

- These data represent the outcomes of renewals due from March 2023-April 2024 in all 50 states plus DC. Total renewals initiated to-date represents data from February 2023-April 2024. Except for renewals initiated, data for MA from May-July 2023 are excluded due to reporting issues. Numbers and percentages may not sum due to rounding.
- Pending renewals to date reflect the sum of total pending renewals at the end of each reporting month and not the cumulative total of pending renewals as of the end of April 2024. States may complete renewals pending in the month after the reporting month. Some states may have reinstated coverage for individuals who were terminated from Medicaid or CHIP in subsequent months. Those reinstatements are not reflected in the data.
- Data may include both unwinding renewals, or renewals conducted following the end of the continuous enrollment condition, and "regular", or non-unwinding renewals.

Medicaid and CHIP Renewal Outcomes Key Takeaways, March 2023-April 2024

Retention Rates and Ex Parte Renewal Rates

- Since June 2023, coverage for over 50% of individuals due for renewal was renewed each month. Since December 2023, coverage for over 60% of individuals due for renewal was successfully renewed.
- The percentage of individuals whose coverage was renewed on an *ex parte* basis in the most recent months continues to be higher compared to earlier months.

Disenrollment Rates and Procedural Disenrollment Rates

- Since September 2023, the monthly disenrollment rate has been at or below 23% of individuals due for renewal.
- The percentage of individuals who were disenrolled for procedural reasons in the most recent months continues to be lower compared to earlier months.

*These data represent the outcome of renewals due in March 2023 (effective April 1, 2023) in four states that had completed at least one full cohort of unwinding-related renewals as of March 2023.

Enrollment in Medicaid/CHIP, Marketplace, and BHP Coverage

Changes in Enrollment in Medicaid/CHIP, the Marketplaces, and Basic Health Program* (Millions)

- In the April 2024 reporting period, Medicaid and CHIP enrollment is approximately 81.7 million, Marketplace enrollment is approximately 20.8 million, and Basic Health Program (BHP)* enrollment is approximately 1.5 million.
- Since March 2023, total enrollment across Medicaid, CHIP, BHP and the Marketplaces has declined by 6.0%, nearly 6.6 million. This is a 12.2 million decrease for Medicaid and CHIP and a 5.4 million increase for the Marketplaces.

Notes:

*BHP enrollment includes data reported to CMS by two states, MN and NY. MN operates a BHP, and effective April 1, 2024, NY transitioned its BHP to a program operated under a section 1332 waiver. The program, which will continue to be called the Essential Plan, expands eligibility to individuals up to 250% FPL. This is reflected as of the March 2024 data. January 2020 BHP enrollment data are included in the February 2020 Pre-Pandemic enrollment total. Total BHP enrollment was 880,198 in January 2020, 1,260,094 in March 2023, and 1,455,040 in April 2024.

March 2024	82,757,285	11,912,713	(11,110,721)	17,560,060*
April 2024	81,696,742*	10,852,170	(12,171,264)	18,716,771

- Total Medicaid and CHIP enrollment declined by approximately 12.2 million people between March 2023 and April 2024.
- There were **17.6 million people disenrolled** from Medicaid and CHIP during the same relevant period, from March 2023 to March 2024,* indicating that some individuals may be re-enrolling or newly enrolling in Medicaid or CHIP coverage.

Notes:

- *Medicaid and CHIP disenrollments are effectuated in the subsequent month that they are reported (e.g., March disenrollments are effectuated in April)
- Enrollment and disenrollment data on this slide are a combination of Medicaid and CHIP enrollment and do not include Basic Health Program (BHP) enrollment

Marketplace Enrollment, March 2023-April 2024

Month	Total Enrollment
March 2023	15,369,700
April 2023	15,524,238
May 2023	15,619,316
June 2023	15,860,052
July 2023	16,103,340
August 2023	16,398,630
September 2023	16,799,473

Month	Total Enrollment
October 2023	17,121,263
November 2023	17,479,852
December 2023	17,342,380
January 2024	19,478,257
February 2024	19,984,356
March 2024	20,399,578
April 2024	20,757,362

- Total **Marketplace enrollment increased by about 5.4 million people** from March 2023 to April 2024.
- This includes enrollment for **HealthCare.gov and State-Based Marketplaces.**
- While we know that this total increase in Marketplace enrollment is not solely due to individuals leaving Medicaid and CHIP, monthly unwinding public reporting (available on data.Medicaid.gov) on coverage transitions to the Marketplace is **lagged and likely an undercount of transitions** due to the nature of matching administrative data sets across programs.
